**Subject:** Success stories for SMBNEP

Hi Molly,

I hope the physical move went smoothly and that the family is doing well in the same geographic location.

I don't know exactly if you are still technically doing NEP work or not, but I wanted to ask this: What are the top 2 or 3 big success stories for the SMB NEP for the past year or so?

The reason for this is that Bernice will be briefing the newly-formed Estuary Caucus this Thursday, 3/30. It's more of having something in case it gets asked, especially from CA representatives. Bernice mentioned that stormwater and green infrastructure have been notable items. Need to get back to her by noon EDT.

Any help would be appreciated. Otherwise, I could read through the annual report and maybe loop in Tom for clarifications.

Thanks,

Vince
